Objective

Software Engineer with robust backend and full-stack expertise, skilled in building scalable web applications, automating deployment pipelines, and engineering high-performance cloud infrastructure.

Technical Skills

Programming Languages: Python, TypeScript, Shell
Frontend & Web: React, Tailwind CSS, Astro
Backend & Databases: FastAPI, SQLite, MySQL
Tools & Platforms: Git Version Control, GitHub, Docker

Project Work

Notification Control Plane ↗ [Python, FastAPI, Shell, Docker Compose, ntfy(pub/sub)]

- Engineered a self-hosted, high-throughput notification gateway using FastAPI and ntfy to centralize pub-sub messaging for custom integrations.
- Automated multi-container infrastructure deployment to a single command via Makefiles and Docker Compose.
- Secured the control plane behind a Caddy reverse proxy, enforcing strict access controls and automatic TLS encryption for all incoming webhooks.

Developer Portfolio Template ↗ [Astro, Tailwind CSS, TypeScript, CI/CD]

- Designed a data-driven portfolio with a GitHub inspired monochrome theme and responsive layouts.
- Built with Astro’s static site generation and file based routing, enabling fast load times.
- Deployed via automated GitHub CI/CD workflows, ensuring zero-friction updates and highly optimized, SEO-compliant static hosting.

GitHub Telemetry Action ↗ [TypeScript, Bun , GraphQL, GitHub Action]

- Developed a declarative, lightweight GitHub Action using TypeScript and Bun to extract high-throughput telemetry profiles via the GitHub GraphQL API.
- Enforced strict structural schemas to guarantee exact data payloads, providing a highly optimized, configuration-driven extraction pipeline for GitHub based integrations.

Education

Master of Computer Applications	June 2026
Rajarshi Shahu College of Engineering, Pune	CGPA: 9.20 / 10.0
Bachelor of Science in Statistics	June 2024
Rajarshi Chhatrapati Shahu College, Kolhapur	CGPA: 7.82 / 10.0

Certifications

- Python - Developers Certification freeCodeCamp ↗
- Oracle Certified Foundations Associate Oracle University ↗
- Python for Data Science NPTEL ↗
- Ubuntu Linux Professional Certificate LinkedIn Learning ↗
